Dear Christine

Tania and my self would like to thank you personally for your assistance with helping us with the purchase of our new home.

As I had mentioned to you in regards with our previous experience we had when trying to but a Home last year working with another Real Estate Consultant that there was no communication or continuous follow up with us.

The way you conducted yourself and assisted us was more than one can expect or experience with buying there first home. Your follow up and updates were and was exceptional with keeping us up to date with everything.

As you know I am in sales and professional/personal service is hard to come by let alone find. You should be commended on not only your approach but on your genuine natural ability in assisting us.

We would also like to let you know that if we ever sell or purchase another home you will be the person that we call as well as anyone else that we know in the present or future you will have a recommendation from us.

With that being said again we will like to thank you from the bottom of our hearts and extend our selves to you as friends for life.

Daniel, Tania and Bandit
